

C1 TRAINING

The SustainAgri training took place in Volos from 18 to 20 July.

The aim and outcome of the training is to enable participants to:

1. describe the objectives and outcomes of the Erasmus+ Sustainable Agripreneurship project
2. understand and explain the meaning of the concept of Triple Bottom-line (TBL).
3. explain how to use a range of SustainAgri tools and learning resources
4. apply what they have learned from the C1 event to plan and implement their own policy testing programme in their local/ regional/ national context.

Details for C1

On the first day, participants were introduced to the learning outcomes of the training and learned more about the curriculum and the self-assessment tool.

On the second day, 3 live learning workshops took place focusing on the learning modules, the SustainAgri Serious Game and the toolkit.

The training ended with an evaluation and review of the course and future steps for the SustainAgri project were also discussed.

Study Visit

On the third and last day of training in Volos for the project, we visited the Karaiskos Agritourism farm in the village of Portaria on Pelion. They gave us a tour of the farm and talked about their vision and the activities that can be done there. This farm is a very good example of the goals of the Sustainable Agripreneurship project.
